Neel Sapariya

Full Stack Developer | Mobile App Developer

+91 9156249398 | Maharashtra, India | sapariyaneel9156@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Profile Summary

Full Stack Developer with strong expertise in the MERN stack, building scalable Web and Mobile Applications using modern JavaScript frameworks. Experienced in developing production-ready solutions with React.js, Next.js, and React Native (CLI & Expo), supported by robust backend systems. Currently working as a Junior Full Stack Developer at PRYM Aerospace Pvt. Ltd., contributing to real-world applications with a focus on performance, clean architecture, and user-centric design.

Skills

Programming Languages: - C, C++, Java, JavaScript
Frontend: - HTML5, CSS3, Bootstrap, Tailwind CSS, React.js, Next.js, React Native (CLI & Expo)
Backend & Frameworks: - Node.js, Express.js, Java (Spring Boot)
Database: - MongoDB, MySQL
Tools & Platforms: - Git, GitHub, VS Code, Postman, Razorpay, Figma, Expo CLI, Supabase
Other: - RESTful APIs, Responsive Web Design, UI/UX Design, Mobile App Development

Experience

Jr. Full Stack Developer - PRYM Aerospace Pvt. Ltd.   **January 2025 – December 2025**
- Leading the development of scalable full stack Apps to support aerospace systems.
- Designing & implementing robust front-end & back-end for real time hardware integration.
- Collaborating with teams to optimize Apps performance and integration.

Full Stack Java Developer - Internship - Ai Variant   **November 2024 - August 2025**
- Successfully led & completed 3 projects as a Team Leader, overseeing both team coordination & technical architecture.
- Led and managed a team of 5 developers, ensuring project delivery and code quality standards.
- Implemented best practices in software development, code reviews, and agile methodologies.

Software Intern - PRYM Aerospace Pvt. Ltd.   **October 2024 - January 2025**
- Integrated sensors and modules in embedded systems to enhance functionality.
- Developed software to control the gyro machine and motors, improving automation.
- Gained hands-on experience in embedded systems and software development for aerospace apps.

Projects

[Aura & Silk (Web + Mobile)](#) | *Next.js, TailwindCSS, React Native (Expo), Nativewind, Supabase*   **December 2025**
- Developed a full-featured e-commerce platform with a production-ready web application and a native Android mobile app using a shared backend system.
- Built the customer-facing website using Next.js & Tailwind CSS, delivering a responsive, high-performance shopping experience.
- Implemented a centralized admin panel to manage products, orders, and users, supporting seamless integration with the mobile application.
- Developed the Android mobile application using React Native (Expo), enabling product browsing, cart management, and secure checkout.

[Sigma Clothing](#) | *MERN, Razorpay, Cloudinary, Tailwind CSS*   **January 2025**
- Designed & developed the e-commerce platform using modern web technologies, ensuring a responsive & visually appealing UI.
- Integrated dynamic product listings, user authentication, and a secure payment system, enhancing the overall functionality and user experience.

- Implemented secure user authentication, cart management, and order workflows to support real-world e-commerce operations.
- Designed scalable REST APIs and optimized database queries to ensure smooth performance under increasing user load.

Edu Learn - LMS System | *Java, Spring boot, MySQL, React+Vite*   **April 2025**

- Developed a responsive Learning Management System that provides a seamless platform for educators and students.
- Implemented structured layouts and styling techniques to enhance visual appeal and user experience.
- Designed role-based access for students and educators, enabling structured content delivery and controlled system access.
- Integrated backend services with a modern React frontend to ensure smooth data flow and responsive user interactions.

HRMS - Management System | *Java, Spring boot, MySQL, React+Vite*   **June 2025**

- Developed a comprehensive HRMS to streamline employee records, attendance, payroll, and performance tracking.
- Integrated RBAC and intuitive dashboards to improve efficiency and provide a centralized platform for HR operations.
- Implemented role-based access control (RBAC) to securely manage employee data and administrative operations.
- Developed modular backend services and dashboards to improve maintainability and long-term scalability of the system.

Education

Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, MH   **Expected 2027**
Masters Of Computer Application (MCA) – VSS College, Jalna.

Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, MH   **May 2025**
Bachelors Of Computer Application (BCA) – BBMJ College, Jalna.

J.E.S College, Jalna, MH   **March 2022**
Higher Secondary Education (12th)

Shri M.S. Jain English School, Jalna, MH   **March 2022**
Secondary Education (10th)

Leadership & Activities

Team Leader, Software Development - PRYM Aerospace Pvt. Ltd.   **January 2025 – December 2025**
- Leading a team of 3 developers in building enterprise software solutions.
- Successfully led the development & deployment of a project & other is currently on development.
- Actively participated in the technical hiring process by conducting multiple interviews of Full Stack Developer Roles.

Project Intern & Team Manager - Ai Variant Technologies   **November 2024 - August 2025**
- Managed a team of 5 interns, overseeing planning, development, & deployment of two fully functional software projects.
- Ensured timely delivery of project milestones and facilitated collaboration across team members.
- Implemented best practices in software development, code reviews, and agile methodologies.
